

CENSUS 2011 – VISION STATEMENT

“To conduct the 2011 Population and Housing Census, which collects demographic and housing data on every individual resident in Anguilla, during the census period and ensure that quality data is available in a timely and cost effective manner for use in evidence based decision making, as well as for use in learning, thereby removing statistics from an abstract to an applied science.”

PRESS RELEASE PRELIMINARY CENSUS FINDINGS #3

‘Number of Households in Anguilla’

THE VALLEY – On the occasion of Caribbean Statistics Day, the Anguilla Statistics Department has taken the opportunity to release additional information collected, analysed and collated from the Anguilla Population and Housing Census 2011 enumeration.

Detailed data was collected from 4,935 households; an additional 1,148 households being established between 2001 and 2011. The average annual growth over the last 10 years from 2001 – 2011 was 3.0%. Even though this was an increase it was an increase at a declining rate.

Geographic Distribution

Most of the increase in the households were established in the district of Stoney Ground (49.6%) and George Hill (47.1%) while Sandy Ground (-10.9%) and North Hill (-2.7%) saw reductions in the number of households. South Hill (12.7%) remained the District with the largest proportion of household; 629, slightly less than its (12.9%) proportion in 2001.

Three (3) of the fourteen (14) districts registered just over 10% of the proportion of the number of household in Anguilla. They were, in order of size, North Side (10.9%), Stoney Ground (10.7%) and The Valley (10.1%).

North Side registered 538 households out of the total 4,935 increasing from the 10.4% contribution in 2001. Stoney Ground and The Valley registered 528 and 496 respectively, with Stoney Ground increasing from the 9.3% contributed in 2001 while The Valley declined from the 10.2% in 2001.

Five (5) districts registered 5% or less in their contribution to the total number of households. Sandy Ground and North Hill districts registered 1.8% and 2.9% respectively, falling from their contribution of 2.7% and 3.9% in 2001 respectively.

The East End and Sandy Hill districts both registered over 4% contributions with 4.5% and 5.0% respectively, both declines from their corresponding contributions of 4.9% and 5.2% in 2001. However, The Farrington registered a contribution of 4.8%; an increase from its 2001 contribution of 4.6%.

Types of Dwellings

Undivided private houses; 3,037, were the most reported type of dwelling unit in Anguilla, accounting for 61.5% of the total number of dwelling units. This was a decline when compared with the 2001 reported 72.2%. South Hill had the most of this type of dwelling with 370 (12.2%) followed by Stoney Ground with 343 (11.3%), while Sandy Ground (1.8%) followed by North Hill (3.4%) had the least.
