

LAND DEVELOPMENT CONTROL COMMITTEE
MINUTES OF THE MEETING HELD ON
13 January 2022

1. OUTSTANDING APPLICATIONS

17/0071 Amendment to Gas Service Station, Water Swamp (Block 48613B Parcel 372) **Ivor Lake**

Approved with the following conditions:

- i. The Auto Gas Station shall not be utilised until the on site accesses (roads etc.) and parking lots have been paved with concrete, asphalt or any other hard surface approved by the Chief Engineer of the Department of Infrastructure;
- ii. All matters relating to industrial waste, waste water and sewage disposal including the layout and design of the disposal system shall be carried out in accordance with specification approved by the Director, Department of Health Protection, and completed in his/her satisfaction prior to the occupation of any building being erected on the land prior to any change of use in any land or building in accordance with the terms of this permission;
- iii. All waste systems to be provided at the land shall at all times be operated and maintained to the satisfaction of the Director, Department of Health Protection;
- iv. All underground petroleum tanks shall be enclosed in oil proof reservoirs at least the same capacity as the tanks which they enclose and these reservoirs shall be opened to inspection periodically and shall at all times be maintained to the satisfaction of the Chief Engineer within the Department of Infrastructure;
- v. The design and installation of petroleum tanks and other plants on the site shall be subject to the approval of the Chief Engineer within the Department of Infrastructure;
- vi. Fire protection equipment shall be installed to the satisfaction of the Chief Fire Officer within the Anguilla Fire and Rescue Services;
- vii. All buildings and engineering operations in connection with the proposed development, including the means of drainage thereof, shall be carried out in accordance with the approved specifications and shall be completed to the satisfaction of the Chief Engineer within the Department of Infrastructure prior to the occupation of any building erected on the land in accordance with the terms of this application;
- viii. Ventilation stacks must be designed and installed in order to safeguard the present air quality and shall be completed to the satisfaction of the Chief Engineer within the Department of Infrastructure, prior to the occupation of any building;
- ix. An Environmental Management Plan (EMP) must be prepared and submitted before the commencement of the operation of the Gas Service Station and should include but not be limited to:
 - a) maintenance details of valve gauge and other operational equipment, hazard zones; and

- b) an operational flow chart mapping all operational components including emergency tools, equipment and hazard zones to be found at any one common location.

19/0101 Subdivision, Corpse (Block 99416B Parcel 342) **Eric Ambrose Harrigan**
