Application # 1

Mr. Travis Simpson

NOTICE

TAKE NOTICE That the Minister of Lands received the below application from Mr. Travis Simpson for a LICENCE to carry out coastal works development of a floating water park at Meads Bay.

7th January 2016

Mr. Victor Banks
Honourable Minister of Lands
Ministry of Lands, Government of Anguilla
The Secretariat, The Valley
Anguilla

Dear Mr. Banks

APPLICATION FOR COASTAL WORKS LICENCE

With reference to previous correspondence between the Ministry of Lands and Myself, I hereby make a formal application for a LICENCE for the construction Floatopia, floating Water Park, off the coast of Meads Bay Beach north of Registration Section West End, Block 17910 B Parcels 2 and 45.

The Application is made in accordance with Section 4 (1) of the Beach Control Act as the park will be located 140 feet off the coast and anchored to the ocean floor. As a young aspiring entrepreneur, I am delighted to bring this new and exciting venture to the shores of Anguilla.

With over 15 years of experience in the hospitality industry, extensive consumer and facility research conducted, I am confident that this park will add enormous value to Anguilla's tourism product. Strategically positioned on Meads Bay, the park will attract a large number of tourists from Viceroy, Malliouhana and surrounding villas. Overtime, with additional investment and expansion, the park is expected to draw visitors from properties far beyond the confines of West End.

Floatopia is envisaged to be more than just another water sports facility targeted to visitors. We see this enterprise as a community oriented business that is committed to giving locals and particularly children an opportunity to enjoy the island's pristine beaches in a fun and safe manner. Floatopia is also committed to sponsoring and organizing community based initiatives that will help to build the social fabric of the island.

It is our hope that this request will receive a favourable response as we seek to increase economic activity and employment, strengthen the Island's tourism product and contribute to social development in Anguilla.

Best regards,

Travis Simpson
Owner,
Floatopia
